

# Autumn 1

## Geography: Around Our School

**Composite:** Understanding aerial views and **interpreting** a **key** using the classroom, school and **local environment**.

### Components:

1. To know that an **aerial view** means to look at something from above.
2. To understand that maps tell us the **location** of different places.
3. To describe **location**.
4. To understand that **compass points** can be used to show **direction**.
5. To understand what makes a good **map**.
6. To draw a **map**.
